# FRUIT GIN LIQUEURS

The Wilkin family have been fruit farming at Tiptree, Essex, since the 1800s and still grow a wide range of traditional English varieties. Our crops are hand-picked, and include strawberries, plums, rhubarb, and cherries.

The Hayman family, local gin-makers since 1863, use a blend of natural botanicals to create their traditional London Dry Gin. Tiptree fruits are combined with the gin to imbue their beautifully rich fruit notes.
