

COVID-19 - MONITORING RESPONSE PLAN.

CONFIDENTIAL

Risk Assessment Number RA-00034-7 Page 1 of 25

Assessor: Kevin Lagan Assessed on: 19-Mar-2021 Kevin Lagan Approved On: 29-Mar-2021 Status: Live Approver:

Department: ΑII

Details:

1 - Scope and Purpose.

This assessment has been undertaken in response to the declared global pandemic of Coronavirus- Covid-19. The scope of this assessment is limited to risk to health only from this strain of the virus. This assessment does not consider financial, reputational, commercial or other business risks. These are managed via separate assessments and management plans.

The scope of this assessment encompasses all operational and administrative areas of the Wilkin and Sons Ltd group and is based on advice and guidance provided by HM Government and updated as at 29 March 2021.

This includes:

- * The Tiptree site.
- * Farms and associated facilities.
- * Tea Rooms and Bus.
- * Tiptree Shop
- * Storage ,Transportation and Distribution(Supply chain)
- * Coles Puddings
- * Tiptree Patisserie

Please refer to the main body of this risk assessment for updates and risk analysis. This is the latest version of the risk assessment dated 29/03/2021 and has been updated to include the latest Government advice and requirements and to include details that Wilkin & Sons Ltd have registered for work place testing.

	with in caring responsibilities ,child care provision.		As individually identified.			mental health support via EAP or staff representatives is available. Flexible working arrangements made available. Management listening tours and maintaining open door policy.				
6	Failing to meet Social distancing requirements. The government has implemented a maintaining 2 metre social distancing (wherever possible) measure to protect people from the potential of infection from close contact. It is applicable across UK society including all workplaces. An allowance to the 2 meter rule is 1 meter plus mitigation.	Transmitting the virus . Staff becoming infected and ill, passing the virus to others.	All staff and visitors	High 20	Y	Wilkin & Sons has undertaken a series of social distancing measures. This includes: implementation of more hands free clocking in stations, staggering start and finishing times, supporting staff to work from home where ever possible, reviewing all operational activities and implementing revised working methods such as greater spacing between staff, side by side working with staggered distancing, back to back protocols when working in areas that may need staff to pass occasionally within two metres. Signage and posters / banners are placed in work and recreational areas. (And in all washroom facilities) Physical barriers have been added to work stations in the factory area. Large supplies of hand sanitiser is provided in every area of the business. Since the government allowed workplace canteens to re open, floor markings, signage and a reduction in capacity (tables and chairs) has been instigated. Spacing between lunch room tables has been made to allow screens to be installed with a minimum of 1 meter distance maintained. Lunch rotas are staggered to minimise crowding and improve flow of staff. Signs are in place reminding staff of the 2 metres rule (in English and other languages). Table service is in operation and pre ordering of food is to be arranged to negate contact with staff. The canteen is cashless. Regular area cleaning is undertaken across all areas of the business. Touch points are sanitized during the day. Foot 'door openers' are installed at the Tiptree site. Separation screens have been installed in our pack house and on sorting belt areas to ensure staff are separated effectively. Provision of face coverings to our engineering teams (cloth face coverings and face shields) which must be worn when working in closer contact than 2 metres for a prolonged period of time. Face coverings are provided FOC. Workforce planning is undertaken to keep teams together in cells (bubbles) where possible. The IFC has hand sanitiser units installed in each accommodation	Moderate 10

						van and in all office and recreational areas. The camp			
						accommodation has been divided into areas and 'Bubbles' of			
						accommodation identified as a mitigation if a positive case/s			
						occurred. This will allow lock down areas to be contained. Doors			
						in all areas are wedged open where possible and areas vented.			
						Tea rooms and retail space is clearly signed and monitored for			
						social distancing requirements. The Tiptree bus limits staff and			
						they work together with face coverings mandatory due to the			
						limited space available. The shop has been considered for			
						dynamic spacing and is monitored by staff when busy. With the			
						introduction of the 1 meter plus mitigation rule, screening and			
						PPE has been provided and all staff are regularly surveyed to			
						ensure they feel safe and secure. All sites are subject to regular			
						assessment tours to ensure that they remain Covid safe			
						workplaces. As of the requirements by HM Government from			
						22nd September 2020, all tea rooms, the Bus and retail areas			
						require all staff to wear face coverings. Shop staff work in			
						bubbles and small teams and monitor distancing well in the retail			
						offering space for over crowding. Maximum of 15 persons are			
						allowed inside the shop (Inc staff). At the advice of the			
						government (issued on 17 October), Tea Rooms will not seat			
						inside or out a group of more than six people, unless they are in			
						a larger household or a support bubble. Persons will be required			
						to sit separately if not from the same household. Table service			
						only will be available in the seated areas of the tea rooms. All tea			
						rooms and retail outlets closed from December 2020. A			
						reopening plan for tea rooms has been developed and we will be			
						reopening for take away and outside seating on 12 April 2021 in			
						accordance with the governments roadman out of Covid plans.

	contact, droplet or aerosol.				Y	As a premium food manufacturer, good hygiene practices are a key way of working. GMP audits are undertaken and recorded including hand swabs and area testing. There are hand sanitisers when entering the workplaces and hand wash stations in changing and communal areas. Additional bottles of hand sanitisers have been provided across the businesses including sterile wipes and cleaning schedules. Additional measures include individual sanitiser supplies for vehicle operators. Clocking in machines have been amended to use a fob / face scan (no touch system) and start and finish times have been staggered to avoid crowding in changing areas and pinch points. Each member of staff is issued with a named pen and a register is kept. This is to stop sharing of stationary. Any shared items have sanitiser wipes provided and are to be cleaned by users. Air hand driers and supplies of disposable paper towels made available across all sites for drying hands. Signage is applied to all common areas with advice on how to practice good hygiene to reduce the potential for spread of Covid-19. Asking and supporting staff to work from home where ever possible. When returning to work places, maintaining awareness of social distancing requirements and re organising work areas as needed. Reducing the need for shared office space. Provision of sanitation wipes for photocopy machines , forklift trucks and

12	Seasonal staff. Seasonal workers travelling in to the UK from Eastern Europe.	Potential for persons carrying the virus and transmitting to others. Transmission to others - serious illness or death.	Farm workers / Factory Staff	High 20	Y	All seasonal workers are to produce a negative covid test before traveling. A health declaration is completed and filed when arriving on worksites. Temperature checks undertaken for a period of 5 days and from August 2020, 7 days. This has now been reviewed and the testing period has been extended for 10 days. Induction includes our requirements for Covid-19 management and is provided for all starters. Confirmation that we have registered for work place testing has been received. This is to confirm the company: WILKIN & SONS LIMITED Essex, CO5 0RF, Tiptree, Trewlands Farm Has registered for National Workplace Testing. Your registration number is NWT 0010 5147. When test kits are received, we will follow the latest government guidance regarding periods when testing should be carried out. Signage is provided in Bulgarian, Romanian, Polish and English advising of social distancing requirements and Covid information. Overseas workers are classed as a fixed team and work group and do not generally work outside of the farm areas. Accommodation is divided into bubble areas to allow effective management of staff by keeping people isolated form others. Each accommodation van is classed as a bubble. In the event of a positive Covid case being identified, all occupants of the accommodation van will be required to self isolate. When working in the factory areas, all staff are subject to factory rules and practice stringent hygiene and social distancing requirements. Most farm work is undertaken outside or in large poly tunnels where social distancing rules apply. Portable hand washing and sanitising stations have been provided. When our overseas staff work in the factory, they will be working in a team and minimised level of exposure between work groups will be implemented. We endeavour to keep our teams in bubble groups and maintain social distancing requirements. Teams will only be deployed into differing areas of the business when absolutely necessary. Any person exhibiting symptoms is to self isolate along with any

CM-001176	Corrective Action	Completed		Promoting and maintaining good hygiene. As Wilkin and Sons Ltd are a world leading food manufacturer, hygiene standards are very high and high quality facilities are provided for hand washing and hand sanitation. Additional supplies of hand sanitiser products have been ordered and a supply of face masks is being held for issue if required.
CM-001177	Corrective Action	Completed		Monitoring travel and following advice from the UK Government regarding high risk areas. Wilkin & Sons Ltd has stopped all national and international travel.
CM-001178	Corrective Action	Completed		Board members meeting regularly to assess the situation. Contact made with 111 to seek advice regarding the recent visit by maintenance teams to Italy. Constant vigilance on the situation.
CM-001179	Corrective Action	Completed		Specific risk assessments for travel as needed to assess the risk potential for each visit.
CM-001180	Corrective Action	Completed		Monitoring travellers for any signs of illness. Seasonal workers have temperature checks daily for 7 days and health declarations completed.
CM-001181	Corrective Action	Completed		Members of staff who have received correspondence from the NHS to shield themselves (or persons at home with serious conditions), have been informed to self isolate / shield, and remain at home until government guidance is updated. Where a person is able, they have continued to work from home. Phased return to work plans are implemented and social distancing and additional hand sanitising measures provided. Face covering and shields are provided to those staff who require them and are encouraged to be worn. Where staff are contacted by the NHS or Health Secretary they will be supported to remain at home.
CM-001182	Corrective Action	Completed		In accordance with Government guidelines, any staff that are reporting showing potential symptoms are immediately sent home / asked to remain at home to self isolate. Any staff who report that other persons in the household are showing symptoms, are to remain at home and self isolate.

COVID-19 - MONITORING RESPONSE PLAN.

Risk Assessment Number RA-00034-7

CM-001183	Corrective Action	Completed	All staff members who have informed us that they are pregnant, are to work for home where possible, or remain at home if they are unable to work from home, so as to limit the potential for infection. If staff come back to any site and declare they are pregnant a risk assessment is carried out by their area manager. No staff are to work in their third trimester after 28 weeks.
CM-001184	Corrective Action	Completed	Posters and awareness messages are provided across all sites to keep staff and visitors reminded of tyeactions that are required to be taken.
CM-001185	Corrective Action	Completed	Pregnant staff in their third Trimester are requested to stay at home and where possible, work from home if conditions allow. Selection of staff for the governments furlough scheme includes those with social needs (child care support etc) as part of the criteria. Shifting start and finish times in line with personal needs on a group or one by one basis. The provision and promotion of mental health support via EAP or staff representatives is available. Flexible working arrangements made available. Management listening tours and maintaining open door policy.

CM-001186

RA-00034-7

Completed

CIVI-001186	Corrective Action	Completed	whikin a sons has undertaken a series of social distancing measures.
			This includes: implementation of more hands free clocking in stations,
			staggering start and finishing times, supporting staff to work from home
			where ever possible, reviewing all operational activities and
			implementing revised working methods such as greater spacing
			between staff, side by side working with staggered distancing, back to
			back protocols when working in areas that may need staff to pass
			occasionally within two metres. Signage and posters / banners are
			placed in work and recreational areas. (And in all washroom facilities)
			Physical barriers have been added to work stations in the factory area.
			Large supplies of hand sanitiser is provided in every area of the
			business.
			Since the government allowed workplace canteens to re open, floor
			markings, signage and a reduction in capacity (tables and chairs) has
			been instigated . Spacing between lunch room tables has been made to
			allow screens to be installed with a minimum of 1 meter distance
			maintained. Lunch rotas are staggered to minimise crowding and
			improve flow of staff. Signs are in place reminding staff of the 2 metres
			rule (in English and other languages). Table service is in operation and
			pre ordering of food is to be arranged to negate contact with staff. The
			canteen is cashless.
			Regular area cleaning is undertaken across all areas of the business.
			Touch points are sanitized during the day. Foot 'door openers' are
			installed at the Tiptree site.
			Separation screens have been installed in our pack house and on
			sorting belt areas to ensure staff are separated effectively . Provision of
			face coverings to our engineering teams (cloth face coverings and
			face shields) which must be worn when working in closer contact than 2
			metres for a prolonged period of time. Face coverings are provided to
			any staff members who request them, and these are provided FOC.
			Workforce planning is undertaken to keep teams together in cells
			(bubbles) where possible. The IFC has hand sanitiser units installed in
			each accommodation van and in all office and recreational areas. The
			camp accommodation has been divided into areas and 'Bubbles' of
			accommodation identified as a mitigation if a positive case/s occurred.
			This will allow lock down areas to be contained.
			Doors in all areas are wedged open where possible and areas vented.
			Tea rooms and retail space is clearly signed and monitored for social
			distancing requirements. The Tiptree bus limits staff and they work
			together with face coverings mandatory due to the limited space
			available. The shop has been considered for dynamic spacing and is
			monitored by staff when busy.

Wilkin & Sons has undertaken a series of social distancing measures.

COVID-19 - MONITORING RESPONSE PLAN.

Risk Assessment Number

RA-00034-7

With the introduction of the 1 meter plus mitigation rule, screening and PPE has been provided and all staff are regularly surveyed to ensure they feel safe and secure.

All sites are subject to regular assessment tours to ensure that they remain Covid safe workplaces.

As of the requirements by HM Government from 22nd September 2020, all tea rooms, the Bus and retail areas require all staff to wear face coverings.

Shop staff work in bubbles and small teams and monitor distancing well in the retail offering space for over crowding. Maximum of 15 persons are allowed inside the shop (Inc staff).

At the advice of the government (issued on 17 October), Tea Rooms will not seat inside or out a group of more than six people, unless they are in a larger household or a support bubble. Persons will be required to sit separately if not from the same household. Table service only will be available in the seated areas of the tea rooms.

All tea rooms and retail outlets closed from December 2020. A reopening plan for tea rooms has been developed and we will be reopening for take away and outside seating on 12 April 2021 in accordance with the governments roadman out of Covid plans.

RA-00034-7

CM-001187	Corrective Action	Completed	Work place environments are not at high risk of aerosol transmission due to layout of work stations and ventilation in most areas. Staff are aware of the need to contain droplets / aerosols caused by coughing / sneezing etc by government campaigns and signage. If staff are required to work closer than 2 meters, the one meter plus rule is applied and face coverings or other screening mitigations are provided.
CM-001188	Corrective Action	Completed	As a premium food manufacturer, good hygiene practices are a key way of working. GMP audits are undertaken and recorded including hand swabs and area testing. There are hand sanitisers when entering the workplaces and hand wash stations in changing and communal areas. Additional bottles of hand sanitisers have been provided across the businesses including sterile wipes and cleaning schedules. Additional measures include individual sanitiser supplies for vehicle operators. Clocking in machines have been amended to use a fob / face scan (no touch system) and start and finish times have been staggered to avoid crowding in changing areas and pinch points. Each member of staff is issued with a named pen and a register is kept. This is to stop sharing of stationary. Any shared items have sanitiser wipes provided and are to be cleaned by users.
CM-001189	Corrective Action	Completed	Air hand driers and supplies of disposable paper towels made available across all sites for drying hands.
CM-001190	Corrective Action	Completed	Signage is applied to all common areas with advice on how to practice good hygiene to reduce the potential for spread of Covid-19.
CM-001191	Corrective Action	Completed	Asking and supporting staff to work from home where ever possible. When returning to work places, maintaining awareness of social distancing requirements and re organising work areas as needed. Reducing the need for shared office space. Provision of sanitation wipes for photocopy machines, forklift trucks and any shared phones.

Covid-19 - Risk Assessment Header Details

1 Scope and Purpose.

This assessment has been undertaken in response to the declared global pandemic of Coronavirus- Covid-19. The scope of this assessment is limited to risk to health only from this strain of the virus. This assessment does not consider financial, reputational, commercial or other business risks. These are managed via separate assessments and management plans. All required government recommendations and actions have been implemented by the Wilkin & Sons Ltd Group and as such, we are operating as a Covid -19 Safe Workplace inside our commitment to always keep our staff, contractors and visitors safe and well. The risk assessment will be updated periodically as new advice / working practices ae needed to be addressed and the risk assessment will be kept live, which means it will contain a chronical of events and actions undertaken since its conception. This version applies from 29th March 2021 and has been updated to reflect that Wilkin & Sons Ltd has registered for workplace testing so as to be able to monitor seasonal staff in line with the latest government advisory. Bespoke testing regime unveiled for exempt international arrivals - GOV.UK (www.gov.uk).

2 Context:

The world is experiencing an unprecedented outbreak of coronavirus. The pandemic of coronavirus disease 2019 (COVID-19) spread to the United Kingdom in late January 2020. As a group, coronaviruses are common across the world. Typical symptoms of coronavirus include fever and a cough that may progress to a severe pneumonia causing shortness of breath and breathing difficulties.

Generally, coronavirus can cause more severe symptoms in people with weakened immune systems, older people, and those with long-term conditions like diabetes, cancer and chronic lung disease.

Novel coronavirus (Covid-19) is a new strain of coronavirus first identified in Wuhan City, China and has since spread across the globe. Wilkin and Sons Ltd have been monitoring the situation closely since the advent of the pandemic and the purpose of this assessment is to consider information that is made available to us, so as to assess the risks to our Staff, Contractors and any other people that may be impacted by our business and act upon advice provided by the UK Government. As the situation is fast moving and highly fluid, the board and management teams will be monitoring the situation on a day by day basis. Action and updates will be implemented based upon government advice. As well as this risk assessment, a document has been developed and will be maintained as a record of business response as a supplementary. (Issue 1 - dated -22 April 2020. Updated September 22nd 2020 - ongoing live document)

Wilkin and Sons Ltd operates a group of businesses that includes fruit farms, food manufacturing, tea rooms, bakeries and shops. It also operates its own distribution centre and fleet of vehicles and in total, at peak season, employs approximately 600 full and part time employees.

Based on current evidence, novel coronavirus (Covid-19) presents with flu-like symptoms including a fever, a cough, or difficulty breathing. The current evidence is that most cases appear to be mild. However, as at 05 May 2020, nearly 30,000 deaths associated with Covid-19 have been reported in the UK. This had risen to 32,000 plus as at 11 May 2020 and over 43,000 as of the end of June; 65,000 in early December 2020, 117,000 as of mid-February and 125,000 in March 2021. As at the date of this review, the number of fatalities is declining along with infection rates and the government and health trusts have started to deliver Covid-19 vaccinations to the public. Due

Covid-19 - Risk Assessment Header Details

to the flu like symptoms, this makes it difficult to identify directly as Covid-19 due to the number of illnesses that are prevalent in the winter period in the UK and across the northern hemisphere. Our approach is one of extreme caution, and as such we follow and apply all relevant government advice.

3 Background.

Wilkin & Sons Ltd have a global presence, and as such we identified that we had members of staff who travelled across the world to meet with customers and agents. Up to 28 Countries were visited (at the time of the initial composition of this assessment - 02 March 2020) (09.23am) and included, Italy, France, Switzerland, Austria and Brazil. Visits have been made to China (but this was at the end of 2019) and at the date of 12 May 2020 @ 11:17am, no symptoms (that are common in people who have contracted the virus) have been identified in any of our travellers or members of staff. Two members of our engineering team visited Italy in February 2020. The areas visited were not identified at the time as being in any of the identified 'high at risk' risk zones. The duration was short (2 days) and an independent risk assessment was carried out with the travellers prior to the trip being undertaken to ensure control measures were identified and implemented. No illness was experienced by either member of staff.

All assessments are conducted with reference to information published by the UK FCO and HM Government, and regularly updated. Websites are accessed daily from the main government website https://www.gov.uk/coronavirus and appropriate measures implemented across individual business areas.

This risk assessment is dynamic and will be regularly reviewed and updated. In addition to this document, Wilkin and Sons Ltd, maintains a supplementary written record of business response, which contains further details of our response to both the Governments and BRC requirements during the Covid-19 pandemic. Wilkin & Sons Ltd have implemented all actions as required by HM Government and are operating as a Covid-19 safe workplace.

4 Review

This assessment was developed by the following staff members, and is facilitated and managed by the Health and Safety Manger – Kevin Lagan CMIOSH.

This version is active as at 14/12/2020, Reviewers of the assessment to date are:

- Scott Goodfellow Joint Managing Director.
- Phillipa Booty Production training co-ordinator.
- Georgina Offord Director.
- Mark Smith Factory Manager.
- Viktoria Beaver Machine Operative.
- Nicky Goldsack Tea Room Manager
- Jade Spindler Tiptree Tea Room Manager

The risk assessment is applicable to various operational areas of the business including:

Date: 29.03.2021v34.4	Author:	Kevin Lagan	2

- Tiptree Factory
- All administration areas
- IFC and Farm
- Coles Puddings
- Tiptree Patisserie.
- Beckenham Storage and Distribution.
- Tiptree Jam Shop.
- Tiptree Tea Room Group Locations.

This release of our risk assessment supersedes all previous assessments and was completed 19/03/2021 @ 11:39 and supersedes previous versions. Updates includes updated information on entry and operations of Tea Rooms and Tiptree shop. Some of the Tea Rooms and shop opened on Wednesday 17th June. The Government had advised that tea rooms, restaurants, pubs, bars and takeaway services can reopen from the 04th July 2020, providing measures are implemented and locations are Covid-19 safe. Measures were revised on 22nd September, and requirements introduced across the tea room group in accordance to the latest government requirements. Further requirements were introduced by the government on 17th October 2020 and these were incorporated into operational practices.

With further changes that were required by HM Government in November 2020, operating methodology has been kept up to date with the requirements of operating in line with the tier system that came into place from Wednesday 2 December. Essex was operating in tier 4 this allows tea rooms and retail to open with specific Covid safe measures in place for takeaways. The Board of Wilkin & Sons Ltd determined that due to the risk to staff and customers that all tea rooms and retail outlets would be temporally closed and this is still the case at today's date (19/03/2021). However, with the governments 'out of lockdown road map, Tea rooms will open for takeaway service and outside seated service on 12th April 2021, and if the rates continue to drop, inside seating will commence on 17 May 2021 and with the government's approval, all restrictions are due to end on 21st June 2021. Wilkin & Sons will monitor the situation and ensure that any amendments to the dates are addressed and actions required, implemented. At all times, we will ensure that we maintain the highest standards relating to keeping our workplaces COVID-19 safe.
